| 0800-1215 | Final Protofed Outbriefs |
| 1215-1315 | Lunch |
| 1315-1415 | Wrap-up and Discussion |
| 1415 | Adjourn |

AMG-13 Action Items

- 1) (TSTCore, DMSO, Protofed leads) Develop approach to capture Federation Execution issues (processes, repeating formats).
- 2) (DMSO, JSIMS, NASM, WARSIM) Examine issues for large scale JSIMS-like exercise (ALSP) scenarios [and performance modeling].
- 3) (DMSO/TST) Develop a structured process to support HLA evolution during the transition period.
- 4) (TST) Meet with the protofederations individually to gain insights from their prototyping experience (following AMG-14).
- 5) (TST, AMGTECH) Provide programming examples as part of the HLA Technical Library to support RTI versions F.0, 1.0, and 2.0 development (ongoing).

New Items

- 6) (TST) Invite AMG members to upcoming security coordination meeting with NSA. Include representative from TIS.
- 7) (TST) Plan proto-federations visits. Include representative from TIS as appropriate.

AMG-13 Action Items (con't)

- 8) (DMSO, AMG) Coordinate presentations on HLA experiences; share materials (e.g., videotapes, briefings); DMSO to coordinate (ongoing).**
- 9) (TST) Add the following topics to planning for upcoming AMG meetings: Moving from DIS to HLA; Testing and compliance; New issues, including "distributed federates".**
- 10) (AMG) Provide info to DMSO (Don Ponikvar) about interest in the use of early versions of the FOM development tools, and about added capabilities which you would like to see considered for addition in the tool set.**
- 11) (Protofeds) Complete revised profile (to be included in final reports). Send questions to DMSO (Don Ponikvar) by 28 August. Answers/clarifications to be provided back to all protofeds. Note: Assumption is that profile data will be made generally available in the final reports and on the DMSO home page.**
- 12) (AMG) Provide information to DMSO (Don Ponikvar) on plans for I/ITSEC demonstrations or presentations on HLA.**
- 13) (Protofeds, federate "owners") Provide feedback to DMSO (Don Ponikvar) on MSRR data profile describing simulations with respect to data useful to implementing HLA federations.**
